

GET INVOLVED AT PURDUE POLYTECHNIC

If you count all the student groups, cultural centers and club sports on the Purdue campus, there are more than a thousand ways to meet people, make friends and get involved!

Here are just a few of the ways you can pursue your tech-centric interests and discover new ones. Visit boilerlink.purdue.edu for a complete list of student groups. **For more information, visit Dudley Hall 1376 or call (765) 494-4935.**

ORGANIZATIONS

» All Majors Engaged in Technology (AMET)

Students in all majors are welcome to join AMET and develop their electrical, technical and team leadership skills.

» Association of Information Technology Professionals (AITP)

Members of AITP network with other IT professionals to share knowledge and advance their technology and business expertise.

» Minority Technology Association (MTA)

The MTA brings students from all Polytechnic majors together to build friendships, encourage excellence in academia, participate in community service projects, promote professional and personal growth and provide opportunities for student involvement in campus events.

» Polytechnic Student Council

The Polytechnic Student Council (PSC) is a liaison between Purdue Student Government, other student councils and other organizations, creating a direct line of communication between students, faculty, community members, administration, alumni and industry representatives.

» Purdue Student Government - Polytechnic Senators

Polytechnic Senators represent the Polytechnic Institute on the Purdue Student Government.

» Student Ambassadors

Ambassadors serve as champions for their major and department, college and Purdue University.

» Women in Technology (WIT)

WIT is dedicated to promoting the leadership of women in technology through networking, mentoring, outreach and service.

LEARNING COMMUNITIES

Students who take part in learning communities make friends faster, earn higher grades and graduate at higher and faster rates than students who don't participate in learning communities.

Almost all Purdue Learning Communities feature a residential component, so students with similar interests and majors have the opportunity to take classes together and live in the same residence hall

Polytechnic Learning Communities

- » Aviation
- » Construction Management
- » The Data Mine – Data Visualization
- » Engineering Technology
- » Women in Technology (WIT)
