If accepted into the Combined Degree Program, I understand the following:

- I will be admitted to the Graduate School at the beginning of semester seven.
- I will submit a Graduate final plan of study prior to the last three weeks of the first semester of acceptance into the Program.
- I will have graduate student status once my Bachelor’s Degree has been completed.
- I will complete my Master’s degree, within **one year** from completing my Bachelor’s Degree.
- The graduate courses must be taken in the residential program; and not through the Purdue Online Polytechnic Institute.
- I may elect to withdraw and continue as undergraduate student by providing written notification to the SATT department, my Graduate Chair, and my undergraduate advisor. If I do so, I will not be permitted to re-enter the combined degree program. In that circumstance, I can reapply for admission as a traditional graduate student.
- Students must maintain and graduate with at least a 3.0 graduate GPA in both programs. There is a 12-credit-hour limit to the total number of graduate credits taken while an undergraduate student that may be used toward the MSAAM. Students should read the MSAAM Handbook for more information.

I understand that I will not be permitted to continue in this program, if:

- If I am unable to complete both degrees by _____ (month and year); or
- If I do not follow a plan of study that will allow me to complete both degrees by _____ (month and year); or
- If I am unable to continue in this program, I will lose my graduate student status and will not be allowed to use any graduate courses for both degrees. The graduate courses would then be applied only to the undergraduate degree. In that circumstance, I can reapply for admission as a traditional graduate student. If, in fact, I resign the graduate appointment and use graduate level courses (50000 or above) to complete the B.S. Degree, these courses cannot be used to satisfy degree requirements for a graduate degree.
