

SAFETY SPOTLIGHT

August 2018

SAFETY WINS

AT497 student teams and sponsoring faculty addressed key safety gaps related to NISW AET Lab/ramp operations as part of their design/build projects:

*Hgr. 1/CRJ Ground Service Equipment maintenance, safety and Training updates.

*Huffer Cart Tow Bar Redesign

Stop by Hangar of the Future to view project posters.

WATCH LIST ITEMS

1. Near Miss Events: Instrument Approaches
2. Parking of aircraft and related damage
3. Alley congestion
4. Communication with ATC Tower.
5. Downing aircraft procedures being followed.

SAVE THE DATE

8/1 - Monthly Safety Committee Meeting at noon.

8/13-17th - CFI Standardization Week

8/22 - CFI, Distpach & Student Biweekly Safety Meeting at 5:45pm.

DIRTY DOZEN - LACK OF ASSERTIVENESS

Definition: Failure to speak up or document concerns about instructions, orders or actions of others

Mitigation options:

- * Express concerns but offer positive solutions.
- * Resolve one issue before addressing another.
