3 credits, CIT selective.

Most meals included, visit Machu Picchu!

Cost: About \$2,000 NOT including airfare.

No commitment until deposit is paid.

Limited to 12 students - Apply NOW!

## CNIT 38101 (SA 10907) - UML & MOBILE APPLICATION DEVELOPMENT IN PERÚ

### Do want to:

- Visit distant and exotic places?
- Immerse yourself in another culture?
- Learn new Information Technology (IT) skills?

Then join us for an exciting study abroad program at TECSUP in Arequipa, Perú! Arequipa is Peru's second largest city, surrounded by three dormant volcanoes.

In the academic portion of this class, you will participate with Peruvian students in three workshops. First you will learn forensic analysis in networking. Next, you will study 3D design and printing in FABLAB, and finally you will explore cloud computing in software design.

Outside the classroom, you will experience the charm of Peruvian culture, the excellence of Peruvian cuisine, and the excitement of Peruvian nightlife. Our cultural experiences will include Arequipa city and countryside tours, a flight to and tour of Cuzco, and a visit to the UNESCO world heritage site, Machu Picchu.
