With more than 75 years of experience in the construction industry, Anning-Johnson is one of the largest specialty commercial construction contractors in the country. We have the strength, depth and experience to successfully complete difficult, complex and demanding projects such as the Harry Potter ride at Universal Studios in LA, The College Football Hall of Fame in Atlanta, Stanford Central Energy Center at Stanford University, or Block 44 in Seattle. From hanging drywall to decorative plaster, we pride ourselves on our ability to focus on the small details while keeping the bigger picture in mind.

http://www.AningJohnson.com

Our goal is the same today as it was when we started in 1992: to be the very best design-build contractor in the industry. We use a proven design-build methodology to bring our clients’ vision to life while delivering the very best experience.

We have offices to serve clients from coast-to-coast - across an array of industries.

Our expert team of in-house engineers, project managers, superintendents, modelers and architects are capable of designing and building the most demanding projects anywhere in the country.

At Buckingham, our standard is to push the standard. We take a custom approach to all of our projects, big or small. Real estate is an investment and it’s our number one priority to maximize that investment. Through expertise, research, and inspired design, we create a personalized experience for residents and guests. To our team, it’s more than just development, construction and property management; it’s about creating a superior environment to live, stay or play. It’s this approach that is what makes us a partner you can count on and it has helped us grow from a modest rental company in 1984 to a company that today manages nearly $1 billion in real estate assets.

http://www.buckingham.com
Founded in 1891, Bulley & Andrews, LLC (B&A) is one of Chicago’s oldest and most accomplished general contracting firms. Together with its operating divisions, B&A represents 120+ years of building industry experience. The firm’s work has a regional focus and includes new construction, renovation and restoration projects in nearly every building market.

http://www.bulley.com

Burling Builders, Inc. is a full service General Contractor headquartered in Chicago established in 1978. Since its inception BBI has been involved with all facets of commercial construction and renovation. These services include conceptual budgeting, pre-construction planning, constructability reviews, general construction, and maintenance. On a typical project BBI’s union crews can self-perform excavation, concrete, demolition, general labor, cleanup, window installation, and carpentry. Burling’s project experience includes new construction of multi-family residential buildings, office buildings, interior build-outs, medical facilities, parking facilities, site development, retail facilities, banks, religious facilities, education facilities, hotels, and other mixed use buildings.

At Calhoun Construction - first and foremost - we are builders. Construction is a complex world that comprises dozens of disciplines, critical schedules, firm budgets, and countless personalities. To successfully navigate these waters, you need a team that not only understands the complexities of construction, but more importantly applies relevance to YOUR needs in dealing with them. At Calhoun Construction, we pride ourselves on investing the time to listen to our clients and gain knowledge of their business and their goals. That valuable insight is fundamental in forming a strong bond with our clients and formulating a trust that is invaluable in our industry.

The entire Calhoun team, from our field personnel to our president, exercises the fact that we only exist to serve our cli...

Cambridge is a general contractor located in Northwest Indiana and Scottsdale, AZ. We complete projects anywhere within the contiguous 48 states including current projects in Georgia, Texas, Illinois, Arizona, and Nevada.

We are a family owned company that is growing and has been in business since 1988. Our goal is to hire and develop our talent and offer them opportunities for growth and advancement.

Our continued growth has been attributed to a high degree of workmanship and professionalism. There are plenty of construction firms with knowledge and expertise, but we stand apart through our commitment to exceptional standards when conducting business, working with customers and vendors, and maintaining a professional staff.

http://cambridgecoinc.com
Cambridge Companies is headquartered in Griffith, IN with a satellite office in Scottsdale, AZ. We serve clients who desire a customized design-build solution. Our company’s core services include scoping, design development, general contracting, and construction management.

Cambridge is founded on the principles of exceptional client service and delivering a top quality project that is on-time and within budget. We are focused on being a single source for all client’s construction needs while maintaining integrity, commitment, and unparalleled quality.

Cambridge has hired alumni from Purdue for many years.

Open positions include:
- Project Engineer
- Summer Intern

We offer on the job training, competitive pay and a full benefits package for full-time employees.

Stop by our booth and talk to one of our representatives!

“The past summer with Cambridge has been a truly valuable experience. The Cambridge team has pushed us to learn more and has provided the resources and any support we might need on our journeys to entering the field of construction management.”

-Jackson Heard & Neil Smith, Summer Interns
Cianbro is 100% employee owned and operated. Presently operating in more than 40 states, 5 markets, and employing over 4,000 team members, Cianbro manages and self-performs civil, structural, mechanical, electrical, instrumentation, fabrication, and coating.

DJ Construction is a family-owned commercial construction company established in 1954 with clients all over Northern Indiana/Southern Michigan. With 60+ years of experience, our satisfaction is driven by the success of our clients rather than the bottom line. We understand that a building project is about more than construction. Our clients tell us there is something “Decidedly Different” about how we choose to do things. We believe we accomplish this through:

Our People: We place honesty, integrity and care for doing things right, above all else.
Our Principles: We will not compromise our values to win a bid, complete a task or settle a difficult situation.
Our Partnerships: We prioritize relationships, not just projects.

http://www.djconstruction.com
DPR Construction exists to build great things. It’s really that simple. We are a company of builders building great projects, great teams, great relationships, great value.

Our purpose and core values are a starting point that help clearly define who we are and what we stand for as a company. They underlie the passion that drives us to be better and different; they allow us the freedoms of our entrepreneurial organization, where people can make a difference with their ideas and hard work.

https://www.dpr.com/

Our company’s mission is to be America’s leading private home-builder. We are focused on delivering to our customers the home and features that they uniquely desire with the craftsmanship, durability and a long standing reputation that’s uniquely Drees.

Holland is a different kind of construction company. While the building expertise and experience we provide clients is critical to our success, our true point of difference is an uncompromising commitment to integrity: the ideal upon which our company was built.

Many companies talk about the importance of relationships, but at Holland we believe relationships really are our business. Because the work we do depends on our ability to successfully facilitate and manage work through our team, various partners, and ultimately, to our clients, it is critical that we create value for everyone along the way. The relationships we build with the people we work for and with are sacred to us.

Our work philosophy can be summed up in two words: Can Do. Without hesitation, we consistently do ...

With offices in Atlanta and Indianapolis, Integra Construction has a two-decade tradition of managing complex projects in the Southeast and Midwest, along with extensive experience throughout the rest of the country. We were formed in Atlanta in 1994 by David Blackmore (Purdue BCM ’84) and Jeff Powers (Purdue CEM ’88) after working together at a nationally recognized general contracting firm. Our executive management team has worked together for over thirty years. This continuity of experience allows us to communicate well internally and ultimately provide better communication with owners, architects and subcontractors.

http://www.integraconstruction.com/
Originated from White Construction, a family owned firm founded in 1947.

In 2011, Infrastructure & Energy Alternatives (IEA) was formed as the parent firm.

The portfolio of companies expanded, adding capabilities and firms focused on engineering, procurement, and construction of renewable energy projects as well as civil and infrastructure scopes.

Today, the IEA group of companies is one of the top renewable energy constructors in North America.

Projects span across the US, powering the nation forward.

Together, we are the employer of choice for close to 1,400 employees during peak construction season.
