

Department of Naval Science

From: Battalion Officer, HROTCU Purdue University
To: Prospective College Program Midshipman

Subj: NAVAL RESERVE OFFICER TRAINING CORPS (NROTC) APPLICATION FOR INCOMING COLLEGE PROGRAM STUDENTS (STUDENTS NOT ON A NROTC SCHOLARSHIP)

1. In order to be cleared for participation as a Midshipmen in the NROTC College Program (i.e. as a student without a National NROTC Scholarship), you must complete the following application documents, as well as the additional items requested below, <u>and return to NROTC Unit Purdue University no later</u> than May 1st.

By completing this application, you certify that you have at least 3 years of full-time, undergraduate coursework remaining (i.e. you are entering the fall of your freshman or sophomore year at Purdue University).

If you are an incoming freshman with less than 30 college credits, you should also be re-applying for the National NROTC Scholarship. We recommend you hold off on the Officer Interview portion of the application until you are here at the unit. Application website: <u>http://www.nrotc.navy.mil/apply.html.</u>

2. Below is a summary and explanation of the attached forms. Some of the forms are fillable .pdf files, but if any information needs to be hand written, please ensure you use black ink, print legibly, and sign all required signature spots.

A. NROTC College Program Application (NSTC 1533/133 Form)

This form is your application to the program. Ensure the Personal Information section is accurately filled out - you will not hear back from us if it is blank. Circle the applicable "USN" or "USMC" to indicate which option you intend to pursue. Ensure the Academics section is filled in as completely as possible. You do not need to send us your high school transcript.

B. Report of Medical History (DD Form 2801-1)

This is a form that the military uses as part of an official medical exam. For our purposes, it is meant for us to determine if there is anything potentially disqualifying for naval service from your medical history. Please be as thorough as possible - failure to report something now may lead to eventual medical disqualification if you are accepted on a future scholarship. A doctor's review and/or signature is not required. Leave the following items blank: Boxes 2, 5, 6, and 7. Note that a reviewing doctor is not required for page 3. FEMALES: you do not need to complete items 18d and 18e.

If you applied to a military academy or if you applied for the National NROTC Scholarship and previously completed a qualifying

DoDMERB Physical Exam, you still need to complete this form and return it to us.

C. Personal Data Information Sheet

This form is used to provide NROTC Purdue with your personal, demographic, scholastic, and home of record information for database entry. Use the code sheet as necessary to help you complete the information sheet. DO NOT include your bank account information. We do require full SSNs.

D. Supply Information and Uniform Measurement Form

This form will be provided to our Supply Officer for the ordering of correctly sized uniforms for you. Follow the measurement instructions on the form for your measurements. You will be issued uniforms during our Freshman Orientation, at no cost. Specific uniform measurement and sizing questions can be directed to Mr. Mike C'Malley, at 765-494-2054 or mbomalley@purdue.edu.

E. Sports Physical

In order to participate in NROTC physical training events, you must have an athletic physical examination or "sports physical" conducted by your family physician. Most physicians have a generic sports physical form, but we have provided you with a form that the state of Indiana uses. You are not required to use the provided form - any sports physical will suffice, **as long as it is signed by a doctor**. Please include this in your application package. If you are unable to complete the physical before the June 30th deadline, you may submit your application package without the sports physical, with the intent of completing and submitting your sports physical to us prior to arrival in the fall.

F Applicant Fitness Assessment (Navy) or Physical Fitness Test (Marine Corps)

NAVY: If you are applying to be a Navy-option Midshipman, you must complete the enclosed Applicant Fitness Assessment (AFA). This test and form is designed for National Scholarship Applicants, which requires them to have the test administered by a specific individual. For the College Program, you are allowed to administer this test to yourself, on your own - we do not require anyone specific to administer the test.

If you previously completed the AFA in conjunction with a National NROTC Scholarship application, you may submit those results to us. Alternatively, if you completed the Candidate Fitness Test (CFA) for a military academy application, you may submit the applicable results from that test to us using this form.

MARINE CORPS: If you are applying to be a Marine-option Midshipman, you must complete the enclosed Physical Fitness Test (PFT). This test is an annual requirement for every current Marine-option Midshipman (and the same test issued to active duty Marines) and a good indicator of your overall physical fitness. You are allowed to administer this test yourself, but it will require another person to assist. There is no minimum score to apply or for acceptance into the program, but your score will be a factor in your program admission decision. If you previously completed the PFT in conjunction with a National NROTC Scholarship application, you may submit those results to us. If you completed the Candidate Fitness Test (CFA) for a military academy application, you must still administer and submit PFT results using the enclosed form.

G. Information Release Authorization

This form allows NROTC Purdue staff to access your Purdue University records. If you are under the age of 18 this must be signed by both you and your legal guardian.

3 Additional required application materials.

A. Proof of Citizenship

We require proof of United States Citizenship for participation in the program. Upon arrival to the unit in the fall, bring with you either an original birth certificate or your passport. We will make our own certified copy, and we will return the original to you. We need an original in order to make our own certified copy.

4. Additional enclosures for your reference. You do not need to take action on these items, they are provided for reference only.

A. Navy Height and Weight Standards

If you are outside of the Navy's height and weight limitation, you may contact us for determining your body fat measurement using the Navy's standard measurement procedures. Note that there are different height/weight tables for the Navy and Marine Corps.

B. Navy Physical Fitness Assessment Standards

You are expected to arrive in good cardiovascular shape, as well as good upper body and core strength. The *minimum* standard for a passing score in this program is a "Satisfactory" in each event. Specific guidelines and required form will be taught to you, but for now the instructions in the Fitness Test section will suffice.

C. Navy Tattoo and Piercing Policy

The Navy and Marine Corps has strict rules regarding body tattoos and piercings. A summary of the policy is included for your reference. If you think that you may be in violation of the policy, contact us.

5. Upon receipt of your completed package with all requested materials, your application will be reviewed and a decision will be made on your eligibility and aptitude for participation. You will hear back from us within a few weeks of receiving your completed package with further instructions. If accepted, you will receive specific instructions and information from us regarding our Freshman Orientation program that occurs during Boiler Gold Rush Week.

6. Please register for NS202 (Naval Lab) and NS110 (Introduction to Naval Science) in anticipation for participating in the NROTC College Program. Also, make every effort to avoid scheduling any 0730 classes throughout the week. Ideally, Midshipmen will schedule classes no earlier than 0830

throughout the week in order to allow more flexibility (and more sleep) for the morning physical training sessions. In some cases, a 0730 class will be unavoidable.

7. Please mail or FedEx your completed paperwork, along with the provided cover sheet with all boxes verified complete, to:

Battalion Officer Naval ROTC Purdue University 812 Third St West Lafayette, IN 47907-2006 ATTN: College Program Application

8. If you have any questions I may be contacted at <u>nrotcbo@purdue.edu</u> or (765) 494-2061.

Battalion Officer NROTCU Purdue University

From: Prospective College Program Midshipman To: Battalion Officer, NROTCU Purdue University Subj: COMPLETED NROTCU PURDUE UNIVERSITY COLLEGE PROGRAM (NON-SCHOLARSHIP) APPLICATION 1. Enclosed are all requested items for my NROTCU Furdue University College Program (non-scholarship) application. Name: Email address: Purdue University Student ID#: Option (circle one): Navy or Marine Corps I have verified that all items listed below are enclosed in this package: NROTC College Program Application (NSTC 1533/133 Form) Report of Medical History (DD Form 2801-1) Personal Data Information Sheet Supply Information and Uniform Measurement Form Sports Physical Applicant Fitness Assessment (Navy) or Physical Fitness Test (Marine Corps) Information Release Authorization I understand the requirement to provide proof of citizenship upon arrival in the fall 2 T I understand that upon receipt of my package, NROTCU Purdue University

will review the materials and will contact me with a decision and provide me with further instructions and information regarding Naval ROTC Freshman Orientation, which is conducted during Boiler Gold Rush Week.

Measurements:

Head:	Hat Size:	Neck:	
Waist:	Chest/Bust:	Sleeve:	
Inseam:	T-Shirt:] M 🗌 L]	XL
Boot Size:	Gym Shorts:] M 🗌 L	XL
Shoe Size:	Sweatshirt:	MLL	XL
	 Sweatpants:] M 🗌 L	XL

Military Measurement Instructions:

Head - Place the tape around the back of the head meeting at the forehead about one inch below the hairline and One inch above the ears.

Neck - Place the tape around the neck at the collar line. Include about $\frac{1}{2}$ " ease for comfort

Chest/Bust - Place the tape over the bulk of the shoulder blades under the arms and over the fullest part of the chest/bust. Keep tape parallel to the floor.

Sleeve - Raise the right arm even with the shoulder, forearm parallel to the floor and palm down, elbow bent slightly. Measure from the center of the back around the bend in the elbow and down one inch past the wrist bone.

Waist - Place the tape around the "natural" waistline. Measurement should have no ease but, at the same time, should not be overly snug. DO NOT measure over the clothing.

Hip - Place the tape over the fullest part of the hip area and across the lower pelvis or fly. Measurement should have no ease, but at the same time should not be overly snug.

Inseam - Measure the right leg from the underside of the crotch to the bottom side of the ankle.

Hat size - Measure the circumference of your head in inches at the line where you would normally wear a ballcap. Boot Size - We recommend you indicate one size smaller than your show size. You will be issued Bates Lites.

I certify that the above information is accurate and true. I understand that the Navy will produce uniform items for me using the sizes dited above. I further understand that I will not be reimbursed for any items that I purchase prior to my arrival at the NROTC Unit.

APPLICANT FITNESS ASSESSMENT

The Applicant Fitness Assessment (AFA) is a component of the NROTCU Purdue University College Program application. The test consists of abdominal crunches, push-ups, and a one-mile run. The purpose of the test is to evaluate your level of physical fitness. As a Purdue College Program applicant, you are not required to have anyone specific administer the **test**; however, we recommend that an observer assist you for timing and recording purposes.

Applicants accustomed to regular physical activity should have no difficulty with the AFA. Being properly conditioned prior to reporting to NROTCU Purdue University cannot be overemphasized. You will be far better prepared to meet the stringent physical demands of the NROTC Program if you maintain a high level of physical fitness prior to arrival.

The three test events of the AFA are administered consecutively in a 25-minute time period. The maximum score, by event and gender, are listed in the table below. There is no minimum score to apply.

	Crunches	Push-Ups	1-Mile
Male	95	75	5:20
Female	95	50	6:00

Test Site

The AFA can be administered in two adjacent venues; an indoor gymnasium and an outdoor track.

The 1-mile run is the last event administered in the AFA. Although it may be administered in an indoor gymnasium or stadium, time has been allotted for transit to an outdoor track. Regardless of the 1-mile run course, the running surface should be flat and free of debris. In either the indoor or outdoor facility, it is imperative that the 1-mile distance be measured accurately. In submitting the time for the run, the applicant and scorer are affirming that the 1-mile distance has been measured and is accurate.

Test Procedures

Results of each event will be recorded on the AFA Score Sheet that follows these instructions.

The test battery must be completed according to the timeline below.

The test sequence will follow the order listed below. This order cannot be modified. There are no exceptions to this sequence or timing.

Events	Test Start Time	Event Testing Time	Rest	Total Elapsed Time
Crunches	0:00	2 minutes	3 minutes	5:00
Push-Ups	5:00	2 minutes	3 minutes	10:00
1 - Mile Run	10:00*	10 minutes		Max: 25:00

*You are allowed an additional 5 minutes of transition time to the outdoor track. If the 1-mile run cannot be started by minute 15, an alternative arrangement for a running surface must be found.

Abdominal Crunches

This measures abdominal/core body muscular endurance.

The applicant must:

Assume a supine (back on floor), bent-knee position (approximately 90-degree bend) on a mat with arms crossed, fingers extended, touching the top of the shoulders, with shoulder blades touching the floor/mat.

Upon the command "GO", flex from the hip, raising the elbows so that they touch the front midpoint (or higher) of the thigh without finger tips losing contact with the top of the shoulders; extend from the hip until the shoulder blades touch the floor/mat.

Applicants cannot rest in the down position. Resting is only permitted in the up position. Fingers must stay in contact with the top of the shoulders while resting, and applicants cannot grab their legs or touch the ground with their hands.

The scorer will:

Note the event start time (should be 0:00 elapsed).

Monitor the start position to determine that the applicant's shoulder blades are touching the mat, fingers are touching the shoulders, knees are bent approximately 90 degrees, and an assistant is properly holding the applicant's feet (hands only on top of each ankle or foot).

Give the command "GO" and start a stopwatch for the 2-minute trial.

Count one repetition each time the applicant's shoulder blades touch the floor/mat.

Monitor body position making sure during each repetition that the buttocks stay in contact with the mat, knees are bent appropriately, hands remain in contact with the shoulders, elbows make contact with the mid-thigh, and shoulder blades touch the floor/mat.

Verbalize "NO" for any repetition that does not meet the criteria listed above.

Stop the test at the 2-minute mark and record the number of repetitions.

Push-ups

This measures upper body muscular endurance.

The candidate must:

Assume a prone (abdomen toward the ground) position supported on one knee on a 1-inch mat or a hard surface floor.

On the command "READY POSITION", assume the front-leaning rest position (arms extended) by placing your hands where they are comfortable (Width is variable). Feet may be together or up to 12 inches apart. When viewed from the side, your body should form a straight line from your shoulders to your ankles.

On the command "GO", begin the push-up event by bending elbows and lowering entire body as a single unit until your upper arms are at least parallel to the ground (90-degree bend). Return to the starting position by extending arms and raising entire body as a single unit until arms are fully extended.

May rest in the up position, flexing or bowing the back as long as hands and feet remain in contact with the floor, and no other body part touches the floor.

Must return to the generally straight body position before attempting another repetition.

The scorer will:

Note the event start time.

Give the command "GO" and start a stopwatch for a 2-minute trial.

Monitor each repetition, making sure body remains straight, moving as a single unit, upper arm is parallel to the floor in the down position, and the arms come to full extension in the up position.

Verbalize "NO" for any repetition that does not meet the criteria listed above. Stop the test at the 2-minute mark and record the number of repetitions.

Terminate the event if the candidate lifts a hand or foot off the ground or touches the ground with any body part other than the hands or feet.

Mile Run

This measures aerobic capacity and endurance.

The candidate must:

Run continuously for one mile (walking is allowed although strongly discouraged).

The scorer will:

Certify the 1-mile run distance.

Note the start time (should be no more than 15:00 total elapsed time since the start).

Give the command "GO" and start a stopwatch.

Monitor the candidate to make sure that he/she does not:

Receive physical help during the event.

Leave the designated running course for any reason.

Receive pacing by another person.

Stop the watch as the candidate crosses the finish line, and record the score in minutes and seconds.

Marine Option Physical Fitness Test

EXECUTION OF THE PFT

Individuals performing the PFT event should wear athletic type clothing. T-shirt, shorts and running shoes are recommended. Keep in mind that the students in the Marine Option program average a score of 275, minimum score when enrolled in the program is 225. There is no minimum score to apply, or for initial acceptance. You are highly encouraged to watch the video reference that illustrates a proper technique of execution of the physical fitness test. Utilize enclosure (1) to record your performance and total score. Push-ups will not be counted as an alternate for pull ups.

Events

1. Puli-up

The goal of the pull-up event is for the individual to execute as many accurate and complete pull-ups before dropping off the bar. The procedures are:

(1) This is not a timed event.

(2) Sweatshirts will be removed during the conduct of the pull-up event in order to observe the lockout of the elbows with each repetition.

(3) Assistance to the bar with a step up, being lifted up, or jumping up is authorized. Any assistance up to the bar will not be used to continue into the first pull-up.

(4) The bar must be grasped with both palms facing either forward or to the rear.

(5) The correct starting position begins when the individual's arms are fully extended beneath the bar, feet are free from touching the ground or any bar mounting assist, and the body is motionless.

(6) The individual's legs may be positioned in a straight or bent position, but may not be raised above the waist.

(7) One repetition consists of raising the body with the arms until the chin is above the bar, and then lowering the body until the arms are fully extended; repeat the exercise. At no time during the execution of this event can an individual rest his chin on the bar.

(8) The intent is to execute a vertical "dead hang" pull-up. A certain amount of inherent body movement will occur as the pull-up is executed. However, the intent is to avoid a pendulum-like motion that enhances the ability to execute the pullup. Whipping, kicking, kipping of the body or legs, or any leg movement used to assist in the vertical progression of the pull-up is not authorized. If observed, the repetition will not count for score.

(9) A repetition will be counted when an accurate and complete pull-up is performed.

2. Abdominal Crunch

The goal of the abdominal crunch event is for an individual to execute as many proper and complete crunches within the prescribed time limit. The procedures are:

(1) 2-minute time limit.

(2) On a flat surface, individual will lie flat on their back with shoulder blades touching the deck, knees will be bent, and both feet will be flat on the deck.

(3) The arms will be folded across the chest or rib cage with no gap existing between the arms and chest/rib cage. Both arms must remain in constant contact with chest/rib cage throughout the exercise. A single repetition consists of raising the upper body from the starting position until either forearms or elbows simultaneously touch the thighs, and then returning to the starting position with the shoulder blades touching the deck.

(4) The buttocks will remain in constant contact with the deck throughout the event. No arching of the lower back or lifting the buttocks is permitted.

(5) An assistant may be used to hold an individual's legs or feet, at or below the knees in whatever manner that is most comfortable for the individual. Kneeling or sitting on the individual's feet is permitted.

(6) A repetition will be counted when an accurate and complete abdominal crunch is performed.

3. 3.0 Mile Run

The goal is for an individual to complete the measured course as quickly as possible. The procedures are:

(1) This is a timed event.

(2) On the command to start, the two individual monitoring the event will start their watches simultaneously when the last individual passes the starting point. One method to time the run, if you have assistance:

A monitor will remain at the start/finish and the other monitor will take a safety vehicle (with communication capabilities) to the halfway point. Monitors will call out the split or finishing time as appropriate, as each individual passes.

NAVY TATTOO/BODY ART/BRANDING POLICY

1. Tattoos/body art/brands. Four criteria will be used to determine whether tattoos/body art/brands are permitted for Navy personnel: Location, Size, Content, and Cosmetic.

a. Location. One tattoo is authorized on the neck and shall not exceed one inch in measurement in any dimension (height/width). Tattoos meeting these requirements are acceptable behind the ear. Permissible tattoos on the torso area of the body shall not be visible through white uniform clothing. No tattoos are permitted on the head, face (to include ear) and scalp.

b. Size. The size restriction for visible tattoos is limited to the area of the neck and behind the ear only. As a result of this change, leg and arm tattoos can be of any size. Tattoo on the neck or behind the ear will not exceed one inch in measurement in any dimension (height/width).

c. Content. Tattoos located anywhere on the body that are prejudicial to good order, discipline, and morale or are of a nature to bring discredit upon the naval service are prohibited. For example, tattoos that are obscene, sexually explicit, and or advocate discrimination based on sex, race, religion, ethnicity, or national origin are prohibited. In addition, tattoos that symbolize affiliation with gangs, supremacist or extremist groups, or advocate illegal drug use are prohibited. Waivers will not be given for tattoos with prohibited content.

d. Cosmetic Tattoos. Cosmetic tattoos are authorized to correct medical conditions requiring such treatment. For the purpose of this regulation, cosmetic tattooing refers to medical or surgical procedures conducted by licensed, qualified medical personnel.

2. Documentation of waiverable and non-waiverable tattoos will be accomplished via Administrative Remarks (NAVPERS 1070/613). NAVPERS 1070/613 will be submitted for inclusion in the electronic service record via the local personnel support detachment for enlisted personnel and mailed to Records Analysis Branch (PERS-312) for officer personnel. Sailors not complying with the established criteria are in violation of uniform policy and are subject to disciplinary action to include involuntary separation.

3. Commissioning Program Accessions. For purposes of this modification of the Navy's tattoo policy, DCNO(N1) is the authority to ensure compliance with the acceptable criteria for all officer commissioning programs. This authority may be delegated.

4. Sailors are advised to review eligibility criteria for desired special duty assignments and commissioning programs before obtaining tattoos.
