Abel Construction specializes in general contracting and construction management, design build, IPD and facilities maintenance. We are one of the largest contractors in the Kentuckiana region and have helped build some of the area's most recognizable landmarks. Our construction experience and expertise is unmatched-but we didn't earn it over night.

From the very beginning, Abel Construction has made construction excellence and project scheduling a top priority. We are particularly attuned to the critical path approach to construction efficiency, which requires always completing a job when the client needs it, on time, on budget and at the highest level of quality.

AECOM was created to design, build, finance and operate the world's infrastructure. Whether we serve clients at one phase of the project lifecycle or throughout it, our role is to apply creative vision, technical expertise, interdisciplinary insight, and local experience to address complex challenges in new and better ways. We help our clients deliver critical resources and services, improve the places where people live and work, and sustain a world in which we can all flourish.

BP is the largest producer of oil and gas in the US, and one of the largest in the world. We employ over 80,000 people and operate in over 80 countries worldwide. We own multiple refineries around the globe, a fleet of more than 80 ships and 25,000 miles of pipeline. We explore and produce in Arctic conditions, and operate onshore and in deepwaters.. And we do it all with one thing in mind: to provide heat, light and mobility to people without compromising the planet.

We are also among the world's most progressive large enterprises. In 1997, we were the first major energy company to acknowledge the need for precautionary action to reduce greenhouse gas emissions. Today BP continues to lead the effort to meet the world's growing demand for sustainable energy.

Founded in 1891 by Frederick Bulley, an English stone mason, and Alfred Andrews, an architect, Bulley and Andrews is one of the Midwest's oldest and most accomplished general contracting firms. While our history is impressive, our focus remains on the future - to cultivate our reputation as innovators, collaborators and solution-finders.

One of our strongest assets as a firm is our people. Individually, we represent varied skill sets, but collectively we share a common thread. We are energized by a challenge and gratified by applying our skills and expertise to meaningful projects. Providing preconstruction, general contracting, construction management and design/build services, our work has a regional focus and includes new construction, renovation and restoration projects.

At Calhoun Construction - first and foremost - we are builders.

Construction is a complex world that comprises dozens of disciplines, critical schedules, firm budgets, and countless personalities. To successfully navigate these waters, you need a team that not only understands the complexities of construction, but more importantly applies relevance to YOUR needs in dealing with them. At Calhoun Construction, we pride ourselves on investing the time to listen to our clients and gain knowledge of their business and their goals. That valuable insight is fundamental in forming a strong bond with our clients and formulating a trust that is invaluable in our industry.

The entire Calhoun team, from our field personnel to our president, exercises the fact that we only exist to serve our cli...

Ultimately, we are here to build better lives. One way we can do that is to help farmers feed the world. But that is a Herculean task, made even more difficult by an exploding global population, environmental changes, social pressures, government regulations and an ever-widening gap between those who can afford quality food and those who cannot.

People cannot build better lives if they are hungry, malnourished or on the brink of starvation. If we are to make a difference-and that is our goal-we

When the issues are complex, the schedule tight and the risk substantial, you need to know only one thing-how to get it right. For 150 years, McCarthy has been America's choice for succeeding with the toughest construction challenges. And building certainty, above all else.

It starts by being a builder first. And taking a hands-on approach to every aspect of every project, from preconstruction through completion. Most of all, it means having a deep understanding of the trade. Knowing how to be both hands-on and high-tech.

We've come a long way since our founder began building farmhouses in 1864. But, as much as things have changed, one thing never has, or will-Our genuine belief that our people make the difference. Come see for yourself.

We have extensive experience with new construction and renovation projects, both small and large. Located in Mishawaka, IN, Sterling Construction currently has a concentrated focus on building multifamily apartment communities in the Southeast and upcoming senior housing projects throughout the Midwest. At Sterling, we realize we are only as good as the people on our team. With this in mind, Sterling has a long standing commitment to hiring the best and providing each employee the opportunity to achieve their potential. Our commitment to employing the best starts with our 3-Year Internship Program.

Webcor Builders is among the leaders in large-scale, commercial construction in California. We have spent the last 47 years defining the skylines in San Francisco and Los Angeles. Our self-performing concrete and interior construction divisions are also industry leaders and pursue and execute projects independent of our general contractor operations. Webcor is consistently ranked among ENR's Top 100 General Contractors and Concrete Construction CC 100. Over forty years of serving clients such as Samsung, Genentech, Oracle, eBay, Lucasfilm, Starwood Lodging, and the California Academy of Sciences has secured Webcor's position as a distinguished builder. Webcor currently has over 1,000 employees and over \$3 billion of contracts in place.
