

SAFETY SPOTLIGHT

July 2018

PATTERN INCIDENTS

24% of reports in the last 6 months are pattern incidents due to pilot situational awareness and ATC.

Prevention Techniques

- * Visual scanning
- * See and avoid
- * Request traffic/advisories
- * Monitor radio frequency

WATCH LIST ITEMS

1. Near Miss Events
2. Heat Exhaustion
3. Proper PPE - vest and closed toe shoes
4. Communication with ATC Tower.
5. Downing aircraft procedures being followed.

SAVE THE DATE

7/10 - CFI Safety Meeting at 5:45pm in NISW 149.

7/11 - Monthly Safety Committee Meeting at noon

7/11 - Student Biweekly Safety Meeting at 5: 45pm in NISW 149.

7/25 - Student Biweekly Safety Meeting at 5: 45pm in NISW 149.

DIRTY DOZEN - PRESSURE

Definition: Internal or external "pushes and pulls" which create a sense of urgency or haste.

Mitigation options:

- * Be sure the pressure isn't self-induced
- * Communicate your concerns
- * Ask for extra help
- * Just say No
