

## **Call for Undergraduate Research Scholarship applications**

The [Office of Undergraduate Research](#) is accepting student applications for research scholarships. Through this opportunity students may receive \$1000 and faculty mentors may receive \$500. Proposed research projects from students in the Polytechnic Institute must align with one or more of the Polytechnic research impact areas: Realizing the Digital Enterprise, Healthy and Sustainable Communities, Future Work and Learning, Cybersecurity and Critical Infrastructure, Community and Civic Engagement. Descriptions for each can be found on the [Polytechnic research office website](#). Faculty support letters must describe how proposed projects are in alignment with one or more research impact areas. Details, student applications, and a link for research mentor recommendation can be found [here](#). Applications are due by March 25, 2018.
