

SAFETY SPOTLIGHT

October 2018

SAFETY WINS

Leaders from SATT, Airport and Purdue Aviation attended a 2 day Fuel Safety Supervisor Training, lead by Inspector Cristion Colon Jr. Who is a committee member of NFPA 407 - Standard for Aircraft Fueling.

The takeaway from our training is to create a revision to our fueling policy procedures primarily utilized in Able Flight and our Glider team.

WE WANT TO HEAR FROM YOU

We want to hear from you! Two way communication is vital in having a healthy safety culture. Let us know about your safety questions, comments or suggestions. Each month we will be answering the submitted questions.

SAVE THE DATE

10/17 - CFI, Distpach & Student Monthly Safety Meeting at 6pm in Forney G140.

10/31- Student Biweekly Safety Meeting

11/7 - Safety Committee Meeting.

DIRTY DOZEN FOCUS - LACK OF COMMUNICATION

Definition: Insufficient transfer of information between two or more people.

Mitigation options:

- * Briefing should occur before and after tasks.
- * Do not assume anything, always ask when in doubt.
