Are you interested in advancing the frontiers of research in Cloud Computing?

I am seeking a PhD student who is interested in working on a National Science Foundation funded project related to cloud computing, machine learning, and image based classification. Prior experience in computer networking and operating systems (Linux and Windows) is necessary. Experience in systems administration and cloud computing would also be helpful.

If you are interested, please contact Prof. Thomas Hacker (tjhacker@purdue.edu) to schedule a meeting or a phone or Skype call to discuss the project.

More information on the Purdue Polytechnic Institute Doctor of Philosophy program in Technology is available at https://polytechnic.purdue.edu/degrees/phd-technology.
