Your **resume** should provide the admissions committee with more information than what's included in the application and focus on what they need to know to better evaluate your admission. The graduate resume is different than the job search resume. Job search resumes are designed to get you an interview; graduate school resumes are designed to enhance your application and provide yet another opportunity to sell yourself.

- The resume is not limited to one-page in length (two pages is fine, though contact info must be on both pages)

- Separates your work and non-work experiences into different sections

- Include all your experiences – not just the ones targeting a specific job

- Some of the most commonly included categories in a graduate school resume are:

Objective

Education

Academic Experience/Highlights

Employment

Volunteer, Community, and/or Extra-Curricular Involvement

Certifications/Professional Development

International degree-seeking applicants whose native language is not English, are required to submit proof of English proficiency. The Graduate School accepts the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) scores for admission. View the Graduate School's [minimum score requirements](#). The Graduate School will routinely waive the English proficiency requirement for applicants who have received a degree within the last 3 years from a school where English is the primary language of instruction in one of the recognized [English speaking countries](#). **Note:** If you have not done so already, request that ETS send your scores electronically to the Purdue University West Lafayette campus using code 1631.

You may check the status of your submitted application by logging into your [online application](#). We will keep you updated as any items arrive.
