

TOP REASONS TO BECOME A TECHIE

PURDUE POLYTECHNIC

YOU'LL GAIN REAL-WORLD EXPERIENCE

Group projects in Polytechnic classes expose students to team dynamics, deadlines and problem-solving skills, which are all aspects graduates will need in the workforce.

The Polytechnic has an online portal (polytechnic.purdue.edu/portal) to match you to potential internships, which can increase your experience and prepare you for employment.

The Polytechnic also hosts career fairs throughout the year.

YOU CAN STUDY ABROAD

The Polytechnic offers many travel opportunities throughout the year that are designed around students' areas of interest, such as:

- » Engineering and building a guitar in **Colombia**
- » Studying sustainable energy technologies in **Germany**
- » Understanding design and construction integration in **Barcelona**

Visit polytechnic.purdue.edu/global to design your global experience.

STRONG STUDENT SUPPORT SERVICES

The Polytechnic offers support services to encourage your self-confidence and help you navigate your college career, starting with Welcome Week, when we host fun activities to help you get acquainted with campus.

Our Faculty-to-Student Mentorship Program pairs Polytechnic faculty with students to provide professional guidance.

The Office of Recruitment, Retention and Diversity hosts study halls during finals week, complete with tutors and snacks.

THE AWESOME LEARNING ENVIRONMENT

College doesn't need to be full of boring lectures. Many of our courses use active learning strategies in the classroom to help you better understand and retain concepts.

GREAT JOBS AWAIT YOU AFTER GRADUATION

Several of our majors have 100 percent job placement rates. Polytechnic graduates have created movies in Hollywood, trained employees in Denver and helped build skyscrapers in Washington D.C.

TECHIE TUESDAYS!

Free donuts when you wear your "I'm A Techie" t-shirt!

WHAT ARE STUDENTS SAYING ABOUT **PURDUE POLYTECHNIC**?

You're always working with your hands. You're actually doing things instead of sitting in a classroom just hearing about all of it."

MIKE THOMAS
PROFESSIONAL FLIGHT

You get to know professors and other staff on an individual level!"

ABHISHEK BALAJI
COMPUTER AND INFORMATION TECHNOLOGY

You're going to have so many opportunities here that you won't find anywhere else."
