#IMATECHIE

What does Polytechnic mean? Through over 30 majors in six broad disciplines, Purdue Polytechnic, one of 10 academic colleges at Purdue University, offers students a unique learning experience. Based on their own experiences, our students define the 10 elements which make Purdue Polytechnic unique in their own words.

@TechPurdue "Reminder: The Minority Technology Association's Valentine's Day fundraiser is in progress, until 3PM in Knoy & until 2:30 PM in Niswonger atrium at the Purdue airport! Handmade Valentine's Day cards & sweets are on sale for \$2 each (or three for \$5)."

@TechPurdue "One cool thing about studying at #PurduePolytechnic is that companies like Cummins show up right on campus to talk with students about future careers. They know how qualified you will be."

@TechPurdue "It's Techie Tuesday. #PurduePolytechnic students, wear your #ImATechie t-shirt and stop by Knoy lobby for a complimentary donut! (Actual photo of some of today's donuts included. Yum.) Until 11 AM or while supplies last!"

@TechPurdue "#PurduePolytechnic proud."

I'm A Techie #27 (Twyla W.) - Purdue Polytechnic: Twyla loves that she was able to find a blend of learning experiences here in Purdue Polytechnic — including electrical engineering technology, mechanical engineering technology, and computer graphics technology — to help her have lots of career choices.
