Barnard Construction Company, Inc., based in Bozeman, Montana, is a heavy-civil construction company with projects underway across North America. We specialize in dam, reservoir and hydro construction and rehabilitation, power transmission and distribution, tunneling, inland marine, oil, gas, utility, and sewer and water pipeline projects. At Barnard, we build the riskiest, most difficult, complex jobs we can find and we hire people who thrive on tough work and demanding opportunities.

*Visit us at booth #118*

<http://www.barnard-inc.com>

## WANT A CAREER, NOT JUST A JOB?

At Barnard, we hold our own competition with the largest heavy civil construction companies in the industry, yet we offer our employees a distinct medium sized company advantage – at Barnard, you are not just a number you are a member of a team. Your ideas count.

We're looking for engineers interested in construction and rehab of the nation's dams and tunnels. We also specialize in inland marine, oil and gas, utility, power transmission, and complex sewer water pipeline projects. From the outset, you'll brainstorm constructability with a team of seasoned engineers at our home office or get your hands dirty in the field.

Barnard's people are the reason for the success of the company. Our reputation attracts people who are committed to producing projects that set a standard for excellence. We safely build the riskiest, most difficult jobs we can find. We are looking for bright, innovative, hardworking people – those who thrive on demanding and challenging tasks and who bring out the best in others on their team.

In 1928, Theodore Drees made his way from Germany to America. That year, he built a small home in Wilder, Kentucky. Today, Drees Homes is one of the largest privately-owned homebuilders in the nation, with additional expertise in architecture, land development, and mortgage lending. Headquartered in Fort Mitchell, KY, the company has operations in Cincinnati, OH; Cleveland, OH; Indianapolis, IN; Nashville, TN; Raleigh, NC; Jacksonville, FL; Frederick, MD; Washington, DC; Austin, Dallas/Fort Worth, and Houston TX. Drees builds architecturally designed, regionally distinctive homes that have won design and marketing awards in every Drees city. We offer hundreds of floor plans, elevations and options, allowing customers to create their unique idea of home. There are several career paths employees can take with Drees, including Construction, Sales, Estimating, Mortgage, and Architecture.

Mattcon has been in business since 1992, is a \$30 million a year, growing commercial contractor based out of Indianapolis, IN serving both public and private sectors with projects ranging from \$100,000 to \$5,000,000 each. We have completed work in the educational, retail, healthcare, government, student housing, religious, and general office markets. We are constantly looking for more opportunities to grow including adding new clients, markets, and geographic locations.

Our professional staff has over 75 yrs combined experience and are all trained in the engineering and construction program from Purdue, Auburn, IUPUI, and Indiana State. This diversity in training enables us to showcase our company motto of "service beyond expectation". We are constantly looking to add quality personnel to join our growing team. All employees are Indianapolis based but work on projects across the US.

McCarthy Building Companies, Inc. has been a community builder for nearly 150 years. Founded as a family-owned construction company, we are now 100% employee owned and the 10th largest commercial builder in America. Unlike many firms of our size, we are true builders; a fact which our clients appreciate since they continually come to us with their most complex building challenges. We provide construction management, general contracting, design-build and self-perform service nationwide. The firm has full-service offices in Atlanta, Dallas, Phoenix, Las Vegas, St. Louis, San Diego, Newport Beach, San Francisco and Sacramento and has built in nearly every state with projects ranging in size from \$1 million to \$1 billion.

**Come meet us to learn  
how you could start a  
successful career with a  
winning team.**

Plote Construction is a family owned business that has been successful in business for over 50 years. Our company is very diversified. We are a general contractor in excavation, asphalt and concrete paving company. The original company was founded over 50 years ago and was an excavation company. Various facets of our business interests include our road building business to asphalt plants, quarries, and real estate property management on various properties that Plote owns. Plote Construction Inc. is committed to excellence in completing our projects safely and profitably, while meeting or exceeding our client's expectations. Plote provides the leadership, resources, and training to address the needs of our employees, customers, and community. Our commitment ensures that each project builds on our past to extend our reputation as the leading civil contractor.

Power is a management-owned commercial construction company that focuses on the greater Chicago metro area. Our aim is simple-understand the expectations of clients, architects and subcontractors, then work hard to exceed those expectations. Proof of Power's success can be found in the fact that more than 90% of our workload is awarded to the firm from repeat clients. Equally important, since its founding in 1926, Power Construction has NEVER been in litigation for performance matters.

As a full service general contractor, Sterling Construction Corporation services a diverse group of customers. We have extensive experience with new construction and renovation projects, both small and large.

Larry Swank, founder of Sterling Group, Inc. formed a company in 1976 specializing in property management services. The commitment to the industry was strengthened in 1983 with the inception of Sterling Construction. We began with modest multi-family apartment homes focused in rural markets throughout northern Indiana. We very quickly expanded our portfolio, both in the types of products we build, as well as geographically, reaching across the entire Midwest. Today, we have applied our expertise to an even larger variety of product types across the United States.

The Hill Group is the leader in mechanical, plumbing and fire protection construction in the Chicago market. We have been able to achieve this status because of the strength of the many men and women that have and continue to work within our company. As we have been in existence for over 75 years, we realize the importance of hiring new employees with the same work ethic and values that helped to create The Hill Group. In order to allow for The Hill Group to continue being a leader in our market, we must find energetic and technically minded people.

### OUR MISSION

*Our mission is to be an environmental services firm where “Excellence Is The Standard”; to be known as an industry leader for design, construction and related services; to keep safety, quality, professionalism, and customer satisfaction the central focus of every project; to provide opportunity, growth, and incentives necessary to attract and retain the high caliber employees required to meet our growth plan.*

Thieneman Construction provides innovative cost saving solutions for our clients through system design and construction. We specialize in water and wastewater treatment facilities along with infrastructure improvement projects. We embrace our responsibility as stewards of the environment to protect human health and our planet.

We take pride in building America’s infrastructure while protecting the environment. We listen to and learn from our clients so that together we achieve results, project by project.

### EXCELLENCE IS OUR QUALITY STANDARD

Core values at Thieneman Construction begin with people. Quality is woven into the fabric of every project with personal pride and achievement. Integrity is engrained in our vision at every level. Our creativity promotes the optimum balance between innovative technologies, strategic planning, and project design efficiencies while delivering superior results, every time. Our responsiveness builds confidence and trust among all project team members and our clients.

Webcor Builders is among the leaders in large-scale, commercial construction in California. We have spent the last 44 years defining the skylines in San Francisco and Los Angeles. Our self-performing concrete and interior construction divisions are also industry leaders and pursue and execute projects independent of our general contractor operations. Webcor is consistently ranked among ENR's Top 100 General Contractors and Concrete Construction CC 100. Over forty years of serving clients such as Samsung, Genentech, Oracle, eBay, Lucasfilm, Starwood, and the California Academy of Sciences has secured Webcor's position as a distinguished builder. Webcor currently has over 1,000 employees and over \$3 billion of contracts in place. In 2014, Webcor earned ENR California's Contractor of the Year award for our performance revenue and compelling slate of contemporary and bold projects.

Weis Builders, established in 1939, has maintained a reputation for building solid relationships. As a third-generation, family-owned general contractor, we continue to exceed client's expectations with our versatility, responsiveness, talented associates, and progressive attitude.

Weis Builders is ranked among the top U.S. construction companies by Engineering News Record. We complete projects throughout the country from four office locations: Minneapolis and Rochester, MN; Chicago, IL; and Dallas, TX.

Weis Builders excels in various markets, including multi-unit residential, senior living, hospitality, retail, commercial and healthcare. We support the development needs of our clients by providing delivery methods such as design/build, general contracting and construction management. In the end, it all comes down to successful relationships with our clients.

Established in 1939, Wight & Company is an industry leader in integrated solutions for the 'build' environment. Wight provides clients with comprehensive architecture, engineering and construction management services.

<http://www.wightco.com>

We are an employee owned company focused on providing incredible client service in the commercial and institutional construction markets. Our roots take us back to 1920 when J.J. Williams established the company in Orlando. Nine decades later, cousins Bruce and Alan Williams, JJ's grandsons, continue to oversee the company in their roles as Chairman and CEO. Although our services are provided primarily in Florida, our business has spread from Orlando, Tampa and Ft. Lauderdale where we have offices, to throughout the Southeast.

Women in Construction Management promotes the positive aspects of being a woman in the construction industry through community involvement, volunteer work, and career oriented activities. Our organization participates in various activities and philanthropies to better shape the ideals of women in the construction industry. The selling of the Pink Purdue Hard Hats allows us as an organization to raise money for our main philanthropy, Girl Scout Day. Each semester WICM hosts this event to inspire future women in the industry where Girl Scouts can learn about construction and participate in hands on activities.
