UX designers walk in their customers’ steps to:
1. Observe and research end users’ needs.
2. Brainstorm solutions to challenges.
3. Incorporate client feedback.
4. Create innovations!

Yes, we’re proud!

Graduates of our UX program become:
- User experience designer
- User researchers
- Front-end developers
- User interface designers

Our graduates work for:
- Google
- Amazon
- SalesForce
- JPMorgan Chase
- Microsoft

“I chose User Experience Design because it provides me with the opportunity to combine my interests in visual design, psychology, communication and problem-solving. I have the chance to influence the way people experience their world through products and systems they use. It is empowering.”

- Shelby B.
