# CAREER 20 FAIR 1)

PURDUE UNIVERSITY

FRANCE A. CORDOVA RECREATIONAL  
SPORTS CENTER

SEPTEMBER 20, 2011

***Special thanks to  
Branden S. Burke, BCM '12  
for his design of the  
Career Fair Guide cover.***

## **EMERGENCY PREPAREDNESS**

Purdue University is a very safe campus and there is a low probability that a serious incident will occur here at Purdue. However, just as we receive a “safety briefing” each time we get on an aircraft, we want to emphasize our emergency procedures for evacuation and shelter in place incidents. Our preparedness will be critical IF an unexpected event occurs!

Emergency preparedness is your personal responsibility. Purdue University is actively preparing for natural disasters or human-caused incidents with the ultimate goal of maintaining a safe and secure campus. Please review the following procedures:

- For any emergency call 911.
- There are nearly 300 Emergency Telephone Systems throughout campus that connect directly to the Purdue Police Department (PUPD). If you feel threatened or need help, push the button and you will be connected to the PUPD.
- If you hear a fire alarm we will immediately evacuate the building.
- If we are notified of a Shelter in Place requirement for inclement weather we will shelter in the lowest level of this building away from windows and doors. A rec sports representative will arrive to escort us to safety.
- If we are notified of a Shelter in Place requirement for a hazardous materials release a rec sports representative will give instructions.
- If we are notified of a Shelter in Place requirement for a civil disturbance such as a shooting we will shelter in a room that is securable preferably without windows. A rec sports representative will give instructions.

## BARNARD

People building for People.

Barnard Construction Company, Inc., based in Bozeman, Montana, is a heavy-civil construction company with projects underway across North America. We specialize in dam, reservoir and hydro construction and rehabilitation, power transmission and distribution, tunneling, inland marine, oil, gas, utility, and sewer and water pipeline projects.

At Barnard, we build the riskiest, most difficult, complex jobs we can find and we hire people who thrive on tough work and demanding opportunities.

*Come see us at booth #89*

<http://www.barnard-inc.com>

In 2015, Barton Malow Company celebrates 91 years of Building with the American Spirit – People, Projects and Communities. As a 100% American and employee-owned firm, Barton Malow provides construction services through a variety of delivery methods to suit our clients' needs. Focused on safety, quality and productivity, we bring self-perform capabilities and custom technology applications to market specialties including education, energy, federal, healthcare, industrial, manufacturing and special event facilities. Barton Malow's team includes over 1,800 people across 12 offices including our headquarters in Southfield, Michigan.

**AN EQUAL OPPORTUNITY EMPLOYER**

At Barnard, we hold our own in competition with the largest heavy-civil construction companies in the industry, yet we offer our employees a distinct medium-sized company advantage – at Barnard, you're not just a number, you're a member of a team. Your ideas count.

We're looking for engineers interested in construction and rehab of the nation's dams and tunnels. We also specialize in inland marine, oil and gas, utility, power transmission, and complex sewer and water pipeline projects. We offer environmental engineering challenges as well. From the outset, you'll brainstorm constructibility with a team of seasoned engineers at our home office or get your hands dirty in the field.

We offer competitive salaries, 401(k)s, annual bonuses, profit-sharing, opportunities for stock ownership, a generous family health plan (premiums paid in full), subsistence and airline allowance, moving expenses, and life and disability insurance.

Barnard's people are the reason for the success of the company. Our reputation attracts people who are committed to producing projects that set a standard for excellence. We safely build the riskiest, most difficult jobs we can find. We're looking for bright, innovative, hard-working people – those who thrive on demanding and challenging tasks and who bring out the best in others on their team. Our people are eager for responsibility.

*We're hiring. Check us out.*

Beazer Homes, headquartered in Atlanta, is one of the nation's largest homebuilders with homes for sale across the United States. We build homes that meet and exceed ENERGY STAR® requirements while appealing to homebuyers at various price points across various demographic segments. In addition to saving energy, our homes allow personalization through our flexible floorplans and design upgrades.

*Come see us at booth #111*

CITGO Petroleum Corporation is an American success story that originated back in 1910 when pioneer oilman Henry L. Dougherty created the Cities Services Company. In 1965, Cities Services decided to change its marketing brand and introduced the name CITGO. They retained the first syllable of its long-standing name and ended with GO to imply power, energy and progressiveness. The now famous and enduring CITGO logo was born.

Now more than four decades later, CITGO is in the top rank of petroleum marketers in the United States, and one of the nation's top marketers of gasoline. We are a world-renowned supplier of diesel fuel, jet fuel, kerosene, lubricants, greases, waxes, petrochemicals and industrial products. The parent company of CITGO, Petroleos de Venezuela S.A.

## David Weekley Homes

David Weekley Homes is the largest privately-held home builder in the U.S., operating in 20 cities in 12 states, and has built more than 70,000 homes since 1976. Our primary business is the design, construction, marketing and sales of new, single-family homes, and our product lines continue to grow with multi-family and Central Living homes.

But to say that we are in the home building business only tells part of the story. We offer a unique working Culture for our Team Members, which earns us workplace accolades like appearing on FORTUNE magazine's "100 Best Companies to Work For®" list eight times. Because for us, Our Purpose of Building Dreams, Enhancing Lives of our Team, our Customers and our Community is why we exist as a company.

As a leading electrical contractor in Colorado since 1951 and wholly owned subsidiary of EMCOR Group, Inc., Dynalectric Colorado delivers the quality you'd expect from a company backed by more than half a century of professional construction and management experience. But we work hard to go beyond the expected by truly collaborating and listening to client needs and ideas. Finding solutions before there is a problem. And always making it right for our customers, no matter what.

Consistently exceeding client expectations might seem like a tall order for most companies. For Dynalectric Colorado, it's simply how we get work done. We hold ourselves to a higher standard of integrity, reliability and trust. And like our many repeat clients and long term employees have learned, you can too.

We value relationships – and our employees play a big role in establishing those relationships.

We are Skender Construction, and we are builders in every sense of the word. Our portfolio shows structures, installations, a record of innovations and problems-solved. Less evident is the secret of our success. We build relationships. And we build them to last.

There's a reason the National Association of Business Resources and the Daily Herald rank Skender highly among the best and brightest places to work. Leaders will pull up the chair next to you. And they will empower you. They'll invite you to think big and to speak freely. They'll ask you to blaze a trail and to gather expertise. They'll encourage you to create, and they'll demand to see the goods. Because we believe so strongly in teamwork, we place endless faith in individuals, individuals who are curious, ambitious, actively kindhearted and unafraid. Does that sound like you?
