Abel Construction specializes in general contracting and construction management, design build, IPD and facilities maintenance. We are one of the largest contractors in the Kentuckiana region and have helped build some of the area's most recognizable landmarks. Our construction experience and expertise is unmatched-but we didn't earn it over night.

From the very beginning, Abel Construction has made construction excellence and project scheduling a top priority. We are particularly attuned to the critical path approach to construction efficiency, which requires always completing a job when the client needs it, on time, on budget and at the highest level of quality.

BNBuilders was established in Seattle in 2000 and has sought to use our highly-technical skills to build throughout the West Coast. BNBuilders quickly gained momentum in the technology, biotech, healthcare, education, commercial, public, and office markets.

For the past 20 years, we have experienced consistent growth and established a reputation for innovative solutions to highly technical issues, comprehensive preconstruction services, a passion for sustainable construction practices, and commitment to safety. This has allowed us to expand our operations beyond Seattle to the entire West Coast. Now with multiple offices in Washington, California, and Colorado, BNBuilders is one of the regions' preferred contractors.

We've stayed true to what Martin Boldt first set out to be - an honest and reliable contractor. Hard work, an innovative spirit and a commitment to our values have helped us grow into one of the largest professional construction services firms in the United States. Headquartered in Appleton, Wisconsin, Boldt operates 18 offices across the United States. Today, we are a fourth-generation family and employee-owned firm serving healthcare, power, industrial, education, automotive and commercial customers nationwide. We develop and build the extraordinary. From straightforward to complex, our focus goes beyond building great things. It's bringing together extraordinary people, places, and ideas to blaze new trails and improve tomorrow's landscape. It's helping the world build boldly.

Bowen is a national construction company that works primarily in the Water, Wastewater, Industrial and Energy sectors. Regularly listed as one of ENR's top 50 environmental contractors, Bowen works on projects that improve the quality of the air we breathe and the water we use every day. When you turn on the faucet, flush the toilet or flip the light switch - you are using the infrastructure that Bowen builds and maintains every day. Bowen self-performs site work, concrete, underground utility work, structural steel, equipment setting, millwright, mechanical and process piping and boilermaker construction.

BP is the largest producer of oil and gas in the US, and one of the largest in the world. We employ over 80,000 people and operate in over 80 countries worldwide. We own multiple refineries around the globe, a fleet of more than 80 ships and 25,000 miles of pipeline. We explore and produce in Arctic conditions, and operate onshore and in deepwaters.. And we do it all with one thing in mind: to provide heat, light and mobility to people without compromising the planet.

We are also among the world's most progressive large enterprises. In 1997, we were the first major energy company to acknowledge the need for precautionary action to reduce greenhouse gas emissions. Today BP continues to lead the effort to meet the world's growing demand for sustainable energy.

Here at BP, we're proud o...

CITGO Petroleum Corporation is an American success story that originated back in 1910 when pioneer oilman Henry L. Dougherty created the Cities Services Company. In 1965, Cities Services decided to change its marketing brand and introduced the name CITGO. They retained the first syllable of its long-standing name and ended with GO to imply power, energy and progressiveness. The now famous and enduring CITGO logo was born.

DJ Construction is a family-owned commercial construction company established in 1954 with clients all over Northern Indiana/Southern Michigan. With 60+ years of experience, our satisfaction is driven by the success of our clients rather than the bottom line. We understand that a building project is about more than construction. Our clients tell us there is something "Decidedly Different" about how we choose to do things. We believe we accomplish this through:

Our People: We place honesty, integrity and care for doing things right, above all else.

Our Principles: We will not compromise our values to win a bid, complete a task or settle a difficult situation.

Our Partnerships: We prioritize relationships, not just projects.

We'd love for you to experience what makes DJ Decidedly Different...

<http://www.djconstruction.com>

At DJ Construction, you have an opportunity to be part of something bigger than yourself:

- Become a part of the team. We are dedicated to creating a unique culture.
- Impact your community through your work and service. A third of our projects are for not-for-profits.
- Considering Team Members for 2023 in Goshen, IN and Kalamazoo, MI.

## Dugan & Meyers

Jerome Meyers and Daniel Dugan established Dugan & Meyers in 1935, and we have delivered a diverse portfolio of high-quality projects since then. Safety, Quality and Service are the benchmarks of our projects, and we safeguard our valued construction reputation by focusing on the expectations of our clients. Throughout our successful history, we have constructed numerous commercial, institutional, and manufacturing buildings, mixed-use facilities, parking structures, renovations, additions, interior fit-outs, water and wastewater treatment plants and other heavy industrial projects throughout the Midwest. Please take time to look through our featured projects.

EE Reed East Coast is a general contractor that specializes in Data Centers, Tilt Up Warehousing and Distribution Centers and Commercial Interiors. We pride ourselves on being builders, not just general contractors, we self-perform our concrete work and approach our projects from this perspective. Exceptional for the industry, 90% of our projects are negotiated with over 85% being with repeat clients. Our approach is defined by transparency, collaboration, attention to detail and hands-on leadership. Our projects are set up for success from the start by our focus on pre-construction, planning, proper staffing and hiring best-in-class subcontractors. We have offices in Northern Virginia and Savannah Georgia. We perform work all over the eastern half of the country.

Founded in 1946, imi (Irving Materials, Inc.) is a privately-held building materials supplier, producer, and construction services company with operations in the Midwest and Southern regions of the United States. The company's foundation is built on two key principles - building long-lasting relationships and safely delivering high-quality custom solutions to customers. As a supplier and producer, the company is a leading provider of aggregates, ready-mix concrete, and asphalt. The company's construction divisions, E&B Paving and Specialties Company, specialize in site development, heavy highway, and civil construction. Collectively, imi has the products, skills, and resources to support residential, commercial, municipal and DOT projects.

Currently in our 40th year in business, ICI is a family-owned company in its second generation of leadership. Since 1982, we have completed award-winning projects through general contracting, construction management and design/build project delivery.

Our clients represent a variety of industries: education, retail, restaurant and healthcare, to name a few; yet their construction needs are essentially the same - the delivery of high-quality spaces on time and within their budget. ICI not only meets our clients' expectations, we exceed them. The proof: more than 80% of our projects are generated by repeat clients and referrals. Clients continually turn to ICI for their construction needs because of our performance history and strong project delivery.

**Building Transformation**

In 1955, during the post-war boom, the Gang-Nail plate transformed residential construction with an affordable and scalable way to manufacture wood trusses. Now, there is an exploding global demand for affordable, sustainable, and resilient homes and buildings, and once again, MiTek is transforming the building industry.

Today, the building industry faces shortages of skilled labor and material. Wasted time, materials, and energy total \$1.6 trillion per year. But there is a better way. We can reduce waste and increase value by optimizing processes - both on-site and off-site - and by moving decisions from the physical world to a virtual one. How we build will be reengineered, and the world will accelerate with a better way of building: Design, Make, Build.

Olthof Homes is proud to be a three generation family-run business. In 1961, Fritz Olthof started on his home builder path, constructing his first set of new homes in Lansing, Illinois. He performed much of the building process himself and that personal touch is still evident throughout Olthof Homes today. Their four sons, Scot, Todd, Dennis and Fritz, along with their grandson, Matt, all earned Construction Management degrees from Purdue University. Today, they are each managing different aspects of the home building process.

Skanska uses knowledge & foresight to shape the way people live, work, and connect. More than 135 years in the making, we're one of the world's largest development and construction companies. We operate in select markets throughout the Nordics, Europe and the United States. Skanska in the U.S. is headquartered in New York City with 30 offices around the country. In 2021, construction in the U.S. generated \$6.4 billion in revenue, and as a developer in the U.S., Skanska has invested a total of \$3 billion in commercial and multi-family projects. Together with our customers and the collective expertise of our 7,300+ teammates in the U.S. and 30,000+ globally, we create innovative and sustainable solutions that support healthy living beyond our lifetime.

<https://skanska.com>

It should be smooth and simple. It should be efficiently managed to meet time and cost goals. But most importantly, it should be an exciting collaboration.

Our team of more than 300 industry experts has been delivering on these promises for more than 60 years-combining invaluable experience with a commitment to industry advancements. Through our Lean approach, comprehensive project management and innovative spirit, we have what it takes to establish true partnerships with our clients. Across every level of our company, we know what it means to roll up our sleeves and get things done.

That focus on people and experiences is what makes us different-and makes the work we deliver exceptional.

In 2005, Adam Miller started Summit Design + Build with the goal of building a company where people loved showing up to work every day; a place where employees could thrive. He also knew a great general contracting and construction management firm is built on a foundation of outstanding, long-term client relationships. That meant delivering on every promise and commitment made. And like a magnet, Summit Design + Build immediately attracted great people and diverse, complicated projects.

Since, Summit Design + Build has quickly grown to be one of Chicago's smartest, most innovative general contractors by focusing on one key proposition: building spaces where people & business thrive. Now in our 15th year, we remain driven by this tenet and continue to leverage our diverse experience ...

Suntec Concrete, ranked #1 Subcontractor in the Southwest by ENR, offers an unparalleled internship for students. This opportunity combines classroom theory with hands-on experience, offering internal classes to boost technical knowledge. Mentors closely guide interns, cultivating key skills while providing structured performance feedback. Interns will gain practical insights from experienced professionals in form construction, reinforcement installation, and quality assurance. A highlight of the internship is a capstone mock interview. Here, interns role-play and present to Suntec executives, why their company should be awarded the mock project. This immersive experience, alongside comprehensive feedback, significantly contributes to a student's professional growth.

Walbridge is an Engineering News-Record "Top 50" U.S. construction company with offices located across the United States, Canada, Mexico and Brazil. Founded in Detroit in 1916, Walbridge serves clients in a broad range of markets, including automotive, manufacturing, industrial process, aviation, commercial, mission critical, water/wastewater, and energy. The company also self-performs concrete placement, rigging and transportation of equipment, and facility management. Walbridge employs 1,500 employees who are committed to sustainable construction and maintaining injury-free workplaces. Environmental Health and Safety have recognized us as one of "America's Safest Companies."

Webcor Builders is among the leaders in large-scale, commercial construction in California. We have spent the last 50 years defining the skylines in San Francisco and Los Angeles. Our self-performing structures and interior construction divisions are also industry leaders and pursue and execute projects independent of our general contractor operations. Webcor is consistently ranked among ENR's Top 100 General Contractors and Concrete Construction CC 100. Over forty years of serving clients such as Samsung, Genentech, Oracle, eBay, Lucasfilm, Starwood Lodging, and the California Academy of Sciences has secured Webcor's position as a distinguished builder. Webcor currently has over 1,000 employees and over \$3 billion of contracts in place.

At Wespac, we pursue the art of construction, while contributing knowledge, leadership, passion, commitment and diversity to every employee, client and project team. Our dedicated, hands-on staff is something you can depend on because we are committed to delivering successful projects. From small tenant improvement projects and follow-up service requests to large shell and master-planned communities, Wespac has the capability to service our clients throughout the entire building life cycle. We cover the following sectors: Education, Healthcare, Hospitality, Industrial, Multifamily, Office and Retail.

Aside from our passion for building, there is something that is deeper within the heart of Wespac - giving back to the Arizona community.

Willmeng exists for people to build their genuine place of purpose. Since 1977, we have been committed to staying true to building excellence and preserving the company's high value to the clients we serve.

We are an Arizona-based commercial general contractor specializing in ground-up and tenant improvement projects for the public and private market sectors in the Southwest.

Our strategic vision focuses on three fundamental aspects: serving as the leader in preconstruction services and supporting prelease transactions; maintaining our ability to competitively bid projects small and large, and fostering the "altruistic service" corporate culture established by recruiting highly talented individuals of great character.
