west MONROE

West Monroe will be attending the Purdue Computing Career Fair and are holding a networking event the evening prior as a means to meet students that may not be able to attend, or are looking for another opportunity to learn about our company. We are a consulting firm that mix business and technology, with teams that include Data Science, Cloud/Infrastructure, Cybersecurity, and Software Engineering. West Monroe is hiring internships for rising Juniors and full-time positions for graduating Seniors. If any of this sounds interesting to you, come meet us at our networking event and enjoy some free food!

SEPT 6 | 4:00 - 6:00 PM
RAWLS 2077
