

Korea Temple Stay:

Bridging Technology, Arts and Mindfulness

Two weeks. Come experience Korea, and uncover who you are.

Website

Come walk through Seoul where old meets new, past palace walls and glowing city views. From an evening walk along the Seoul City Wall to summer festivals by the Han River, filled with music, food, art, lights, and laughter, discover Korea through sounds, tastes, colors, and energy. Meet Korean peers at SKKU, share ideas, and see where creativity and technology come together, with 629 years of tradition energized by Samsung-powered innovation. Then chase the waves along the East Sea, surf by Seorak beach, breathe deep, roam free. Climb mountain trails, hear temple bells ring, and find what nature and stillness can bring. At CNU, make new friends, build something together and soak in the energy of campus life....Then enter Sinwonsa, tucked in the forests of Gyeryongsan's hills. Meditate, savor tea, reflect, and slow, and perhaps uncover more of who you already are as you unwind.

June 9 – June 23, 2027

We invite rising juniors and seniors in Purdue Polytechnic to spend a transformative summer in Korea. Please contact Dr E. Cho Smith: wilso287@purdue.edu for details.
