

## experience prototyping course

while technological solutions dominate our world today, people lives are full of sounds, spaces, other people, sensors, textures, smells, chaos, dreams, jokes, surprises, and so much more.

so let's work with these things:  
let's imagine richer experiences for people, by learning to prototype ideas with anything we find in the world around us.

## study abroad in india

at its national institute of design  
for 2 weeks in jul-aug 2026 #tbc  
and earn 3 credits.

new  
media  
agency.
