

# Tokyo Trip

Gain a deeper understanding of international theme parks and Japanese cultures through immersive experiences in design philosophy at the Tokyo Disney Resort and Universal Studios Japan. Observe how local traditions, values, and aesthetics are integrated into the park designs, attractions, operations, and entertainment offerings and analyse how these differ from domestic park designs and operations.

Exploring the innovative design and technology behind the attractions at these parks to stimulate creativity and critical thinking. Analyze how storytelling, engineering, and technology are combined to create immersive experiences, which can inspire new ideas and approaches in this fields of study and examine how these differ from domestic park designs and operations.

Visit sites such as:

Tokyo Disneyland  
Universal Studios Japan  
Warner Bros. Backstage Tours  
Fuji-Q Amusement Park  
Mt. Fuji  
Nara Park  
Osaka Castle

Program Leader:  
Professor Michael J. Cole
